GRAND LEADER

MORRIS KOHLMAN, Proprietor,

MADISONVILLE, KENTUCKY

EFORE the fading embers of a grate fire, Parrish Morton sat alone. Outside, the snow was falling in nebulous, transcendent clinging to the coats of makers on their way to Christmas eve festivities and swathing all in a filmy scarf of white. Chimes of distant bells proclaiming "Peace on | sound! earth, good will to men," distilled their suphony across the glinting night-but Parrish, in the brooding shadows of his bachelor home, paid no heed. What did Christmas eve mean to him -to him whom the God of Plenty had given money and fame, the plaudits of his fellows, and all else loved by a man with but the frost-marks of time at his temple-and having given these. had passed to him the sparkling shell of the champagne of love only to dash It with a leer of derision at his feet? Of what use were the riches and the

vain pomp and popular praise make jup for the loss of that which every good man craves-love, a pure voman and the thousand incentives that have their awakening beside the towhead's crib and in that holy hour when tousled curis lay lightly on a father's breast? And all the Christmas eves to come! How cheerless and how lonely they

would be with Verona gone-Verona who had come to him from the deathed of a strangety beautiful woman in

He was searching for color in the hills when he stumbled upon the sone—the stranded wagon in the foothills, the mother upon whose face was the pallor of death, the stunned, halfrealizing child with the glorious goldon hair and the lips like twin cherries. With her last breath the griefstricken mother told brokenly of a ausband who had died en route, of their efforts to make Los Vegas, how the son had gone on ahead for the foctor, and how in despair she had waited and waited his return. That night just as the great, pitiless black-

ress threw its mourning robe across the canyon, the woman died!

How vividly it all came back to Parrish Morton now as he buried his face in his hands before the crackling embers of the lingering fire! How Verona clung to him in her terror and sobbed for her mother, sobbed for her father and her brother! Was ever a child so hereft, so desolate?

And he had taken her home with him and placed her in the hands of his enpable housekeeper and as time passed and so record of her kin could be found, he had advanced her into his heart-into the most sacred corner of his great heart and watched her grow into a beautiful maturity, a full blown rose of womanhood with eyes Tike the depths of quiet brooks and face of an angel, with red lips ddier still and tantalizingly sweet! And then the blow fell! The realithat he loved her and that he,

her profector, must preserve her against that love, for she was but 17 and he was 33, then-and he had promised her mother out in the New Mexican foothills that he would care as best he could!

Ah, how lonely the place was when he had sent her away to school, to a distant school where he might not have to endure the pain of seeing her often-and how she had looked into pleading, half understanding eyes of a face in some leafstrewn hollow in the autumn woods!

He had kissed her in his old, paternal way and her heart aggrieved had sent subtle glances of bewilderment to flash and play within those orbs whose depths he dared not

And to avoid meeting her, he had self aloof for two years, while absence made the heart grow fonder and the memory of her thrilled him as the soft caressing fingers of some sweet inamorata thrills the tremulous strings of her guitar! And now upon

his return, she had written him that she had made plans for Christmas that might detain her at Sussex, but she wished him a very merry Christmas, wished that he might find his heart filled with joy at again being beneath the old roof-tree, wished that this Christmas might be the happiest of all the Christmases he had ever experienced, and lastly assured him that she was sending him a memento of the season, which she hoped he would cherish and love for her sake.

Parrish Morton repeated the words sadly: "For her sake! Ah, for her sake!"

If she but knew what he would do for her sake, were it possible! But, no, she was not for him. The violet and the cosmos are incongruous. Youth and late summer are not born to trip hand in hand across the fields Elysian into Agapemone.

The bell rang sharply. He heard Phipps' soft tread upon the stairs, and tistened. Yes, it was she. There was

no mistaking the rippling cadence of that sweet-throated bird of passage. Turning, he pressed a button and the room was sparkling with light. At the top of the stair he stood hesitating, for her and keep her from the pitfalls | striving to gain control of himself. At the foot, she paused, made him a mock "courtesy" and held out her arms:

"Oh, Par., dear old Par., I have brought you your Christmas present instead!

The attitude, the look in her eyes, his eyes at parting with the half the irresistible enchantment of her beauty flooded him with impelling young rabbit suddenly met face to | power. What did she mean? Was it herself she was offering? For a brief moment he stood swaying to the mighty impulse within him. Standing stupified there, he remembered, as she bounded toward him! He must nothe could not-

And then, as he was about to sweep aside all the positiveness of his duty, all the negatives and forbearances and gone on a distant mission, kept him give free impulse to his heart, there came a step behind her. She heard and turning as she was about to enter the yearning haven of his eager arms, cried:

> "Oh, pardon me, Mr. Morton, let me introduce Marshall Marriott. He-" Suddenly the stairs went black before him. He realized now! She was bringing him a Christmas surprise, the man she loved, the-

Somehow he managed to greet the stalwart young fellow with the frank eyes. In a maze of conflicting painand surprise he did the duties of a host, and when Verona and her escort had been shown to their rooms to aress, he slipped into the den and cast himself into the great arm chair before the pulseless coals of the fire-

"Lost! Lost!" kept ringing in his ears, and with a grosn of anguish be once more buried his face in his hands and gave way to a man's In vain he tried to reason with himself that it were better so. He should not have expected or even dared to think it might have been otherwise. He was too old for her She was sunshine, he was the somber cloud-but, oh, how he loved her! And for the moment he had thought she meant to give herself. The misery of it all! The heartache of it!

Suddenly, behind him he heard rustle, the frou-frou of a woman's gown, and over the side of his great chair a warm arm stole softly against his neck.

"Oh, Par., what is it, dear? What have I done? What--'

Instinctively in the darkness he felt the frightened rabbit look, the appealing gaze. Summoning all his reserve strength, he said, with scarcely a tremor in his voice:

"Nothing dear, nothing to offend. am glad-glad-for you, if he is

"If-if-he-is worthy-oh, you goose, I see it all now!" In a flash she threw her arms about his neck Her face was close to his. How soft and warm and soothing her flesh was! have just found him. I-thought you would be glad-I wanted to surprise you—I—I—don't you want Christmas present?" in desperation.

With a mighty heart throb he reached about and drew her to him. Tenderly, tremblingly he clasped his arms about her and as their lips met in a plighting kiss, a tiny flame springing as from the heart of an ash-covered sapphire, flamed up from the

grate and sent the shadows scurrying. Phipps coming to announce dinner stood transfixed. Then, a broad grin upon his face, he slipped softly away chortling to his inmost self:

"Lawd! Lawd! Dere sure am gwine t' be a weddin' in this yeah house afore another Christmas eve! Yas'ir!'

A Quickly-Made Present.

Most women know what it is to be short of a present on the last day or so before Christmas. If one has plenty of money to go out and buy a gift this need cause little worry, otherwise quickly-made gifts are in order.

One that can be turned out in a few minutes is one of the new hairpin cases. This is made of the fiber that is used in women's artificial pompadours, only of a silvery white color.

The Rose of Jericho.

We are told that the rose of Jericho. which is also called Mary's rose. ang up along the path of the Holy Family after they left Bethlehem, and blossomed brightly wherever they-rest ed. This flower which bloomed at the birth of Christ showed its sympathy by closing at his crucifixion, only to open again at his resurrection.

A Christmas Thought.

So may each year be happier than the last, and not one meanest brother or sister debarred of his share of the great Creator's good gifts! -- Charles Dickens.

THE DAY NOT LIKE IT WAS FIFTY YEARS AGO.

The Old Customs of the Burghers Have Been Forgotten by the Newer Generation in the Modern Hub of Empire.

MERICAN and English newspapers at Christmas time often have picturesque accounts of the German Christmas, which conjure up a clear frosty atmosphere and re-echo the song of the skates on the frozen lakes. For

Anglo-Saxon notion of the Germa Christmas is drawn from those childhood hours spent over Hans Andersen and Grimm, and the sight of a Christmas tree brings to mind the wood-cutter tramping home through the snow laden forest, trailing behind him the fir tree for his family Christmas celebration, while, in the towns, the black quadrangle of the venerable market place is picked out in lights blazing on the trees in the windows of the gabled houses.

Fifty years ago, before the young German giant had awakened from the sleep of centuries, this idea of the peaceful German Christmas was correct, the Berlin correspondent of the New York Evening Post says. But if one of the burghers of old Berlin, returning from making his Christmas purchases on Christmas eve, were to be transplanted into the roaring hub of empire which his haupstadt has become in the year of grace, 1909, the good man would probably expire on the spot.

Fifty years ago, when Berlin was a dirty, unpretentious, provincial town, with ill-lighted, ill-paved streets, with a population renowned even in those "Well, it's like this," replied the days for its surly manners and uncouthness, and with the iron hand of "His first wife's cousin and my second militarism unchecked over it all, the Christmas festival was the tranquil celebration of which one has read. CHURCH FAMED IN HISTORY

Edifice of St. Nicholas at Great Yarmouth Said to Be the Largest in England.

The Church of St. Nicholas at Great Yarmouth is said to be the largest parish church in England. It is certainly larger than some of the cathedrals, and it is broader than York Minster. It possesses a remarkable curiosity in the shape of a revolving reading desk, but, apart from this, the interior is not particularly interesting, though it would have been had the church wardens of the past been as appreciative of art as of business. We hear of a splendid altar tomb being demolished to make room for a doorway, of the beautiful sepuchral brasses being sent to London and cast into 'weights for the use of the town!"

Certainly, we cannot blame Cromwell and his troops for all the destruction worked in famous churches.

It was in St. Nicholas church that Lord Nelson, accompanied by Sir Wilfam and Lady Hamilton, returned thanks to God, in November, 1800, for the successes of the British fleet. Even the largest parish church in England could scarce contain the mighty congregation.

The Roots of Altruism.

The three eternal roots of altruistic energy are these: First, the principle of justice; that there is a moral law. before which all men are equal, so that I ought to help my neighbor to his rights. Second, the principle of charity; that I owe infinite tenderness to any shape or kind of man, however unworthy or useless to the state. Third, the principle of free will; that I can really decide to help my neighbor, and am truly disgraced if I do not do so. To this may be added the idea of a definite judgment; that is, that the action will at sometime terribly matter to the helper and the helped.

St. Bernard Monastery. At present the monastery of St.

Bernard costs about \$9,000 a year to keep up. This money is partly collected in Switzerland and partly deastic order.

Really Pass Hat in Church. There is one church in New York where the hat, the real article, is still passed for the offering. It is a cols ored church and has small quarters west of Ninth avenue. One man makes the collection.

**** Christmas at Sea

By Admiral Bob Evans

*

Christmas morning." said

Admiral Evans (Fighting Bob), "I thank God that he made three times as much water as land. Every old seadog will join me in tals. The sea is his home; he loves it the farmer loves his broad acres. Apart from it he is restless and dissatsfied, but with a voyage ahead of him he is as happy as a clam at high tide. to true sailor would exchange Christmas at sea for one on shore. It would a like Thanksgiving dinuer without

"Of all the Christmases spent at sea the one that rises before me most vividly is that of 1865, when the fedwal army and the gunboat fleet were toying to capture Fort Fisher. The only presents we received, and they came fast and furious, were solid shot and shell from the guns of the enemy. But this didn't destroy our sense of humor. The boys would write on each solid shot or shell before placing it is the gun, 'presented by,' and add the name of the vessel from which it happened to be fired. Mighty few hurled at the fort that day lacked this Christmas greeting. All the gunners caught the spirit of the grim jest, for the fighting line is no place for serious faces.

"Despite the excitement of the fleres combat we managed to have the mastheads of all the ships trimmed with Christmas green, even though the sailors had to risk their lives in going ashore to get them, and you may be assured the sentiment of the day was not wasted.

"Last year Santa Claus followed our feet of 16 vessels. He anticipated our 12,000-mile voyage and furnished us in advance with the pick of his best. On board the supply vessels when we sailed from Hampton roads were thousands of packages containing every imaginable Christmas gift, from a whisky flask to a smoking jacket, each package labeled, 'Don't open until Christmas.

"Along with those gifts he sent thousands of yards of bunting to decorate the mastheads of the battleships. It would be difficult to imagine a more beautiful sight than these ships lined up Christmas morning with the sailors breaking out the Christmas trimmings with as much zest as the small

boy displays when he lights the candles on his Christmas tree.

"Then comes the opening of the Christmas packages. This is always a gala occasion. Not a man on board would dare ignore the instruction any more than he would think of disobeying his superior officer. It has become custom through years of faithful observance. Always a bottle of wine is broken in christening these tokens from the loved ones at home.

"If I hadn't been a lieutenant myself I wouldn't dare give away official

"Last year we practically had two Christmases. We received our first mail at Trinidad, West ladies, some time Christmas week and delayed Christmas mail reached ws at Callao, when the vessels were approaching their own country on the western

"No nation provides more pleatifully for the Christmas cheer of its sailors than does Uncle Sam. Each of the battleship crews has a dinner of roast turkey, plum pudding, pumpkin pie and all the trimmings which go with it. Christmas Musings. There are warmer hand-shakings on this night, wrote Alexander Smith, than during the bypast 12 months. Friend lives in the mind of friend. There is more charity at this time than at any other. Poverty and scanty clothing, and fireless grates come home to the bosoms of the rich and they give of their abundance. The his Christmas feast. Good feeling incarnates itself in plum pudding. The Master's word, "The poor se have always with you," wear at this time a deep significance. For at least one night on each year ever all Christendom there is brotherhood. And good men, sitting amongst their families, or by a solitary are like me, when they remember the light that shone over the poor clowns huddling on the Bethlehem plains 1,800 years ago, the apparition of shining angels overhead, the song, "Peace on earth and goodwill towards men," which for the first time hallowed the midnight air-pray for that strain's fulfilment, that battle and strife may vex the nations no more, that not only on Christmas eve, but the year round men shall be brethren, owning one Father in heaven.

Seeing a tramp hurrying away from a large house, a fellow professional asked him what luck he had met with. "It ain't worf askin' there." was the reply. "I just 'ad a peep through the winder. It's a poverty-stricken 'ouse mate. There was acabully two lydies playing on one planner!"

Telling Age of a Fish.

The age of a fish can be determined with accuracy by inspection of the very redbreast of the woods enjoys otoliths or bony concretions which are found in the auditory apparatus. These otoliths increase in size during the entire life of the fish, each year adding two layers, a light colored layer formed in summer and a dark layer formed in autumn and winter.

The alternate layers are sharply contrasted and very distinct, so that there is no difficulty in counting them. The number of pairs of layers is equal to the number of years the fish has lived. By this method Wallace has made an interesting study of the distribution of fishes of the plaice species over various sea bottoms, according to age. In this way the rapidity of growth of fishes and the effect of fisheries on the population of the sea can be determined .- Scientific

Chinese Barbars Don't Use Lather. "One of the chief trials of the ave age man is the way his razor p when he proceeds to erase the bea

from his face," remarked Julian Apperson, of St. Louis.

"Some years ago I was in China a I noticed that the cunning barbers that country instead of putting lath on the faces of their customers u a number of hot towels intead. went through the experience and to came a convert to the Chinese tem. To this day when I go to she in lieu of soap I steam my face hot water, and find that this met! takes all the wrinkles out of whiskers far better than lather, that if the blade is reasonably all you can shave without any tort incurred in the 'pulling' process."

The Japanese have discovered a cheap substitute for the milch cow in the form of a tiny bean. The juice, which is extracted by a special process from the bean, is said to be an excellent vegetable milk, the properties of which render it highly suitable for use in tropical sountries. The preparation, according to the Java Times, is obtained from the soja bean, a member of the leguminous family of plants and a popular article of food among the poorer classes of Chinese and Japanese. In making the vegetable milk the beans are first of all softened by soaking and boiled in water. The resultant liquor is exactly similar to cows' milk in appearance, but is entirely different in its compo-

Man's Guardian Angels. The following beautiful allegory is told among the Turks: Every man has two guardian angels, one on his right shoulder and one on his left. In doing good the angel on the right shoulder notes it down and sets his seal upon it, for what is done is done forever. When evil is committed the angel on the left shoulder writes it down, but he waits until midnight before he seals it. If by that time the man bows his head and says: 'Graclous Allah, I have sinned, forgive me!" the angel blots out the fault, but if not he seals it at midnight and then the angel on the right shoulder

A. Jackson, His Tavern. The old Whitney Tavern in Shelbyville, Tenn., erected in 1810, is still in a good state of preservation. It is built of cedar logs, which are chinked and pointed between, and with the exception of the renewing of the weath er boarding and shingles it has undergone no change. The large stone chimneys, with their board fireplaces, are still in as perfect condition as when Gen. Jackson and other noted personages were entertained there .-Columbus, O., Journal.

The North rest Passage. A favorite project with Peter the Great of Russia was to find out if Asia united with America at the northwest. Unable to accomplish this during his lifetime, he left instructions, faithfully executed by Empress Catherine, who fitted out an expedition for this purpose and intrasted it to Capt. VItus Behring, a Danish navigator in the Russian service. He discovered Reining straft in 1728.

STEEL INQUIRY DEMANDED

RESOLUTION DENOUNCES "SOUL-LESS CORPORATION

Federation comerence to Lay Before Congress Request to Investigate "Right to Exist."

Pittsburg, Pa., Dec. 15 .- Denounce ing the Umica States Steel Corporaon as a "soulless corporation," whose god is the aimighty dollar, the conscience committee of labor leaders of the American Federation of Lapor adopted resolutions recommenaing that a communee be appointed to lay before congress and Presiaent Taft the grievances of labor and that an investigation be asked looking into me corporation's right to exist under

It is also recommended that the information be placed before the govrnors of the different states in which as plants.

The grievances which are set forth in the resolution, deal with the low wages paid, the hours of work and the general conditions of oppression under which the corporation holds

its employes. The resolution was adopted amid the stormiests of scenes. It is an attack on the Steel Corporation from

beginning to end. After pointing out the enormous profits of the Steel Corporation, which the resolution say is equal to \$600 yearly for every man of the thousands employed, and further declaring that thousands of the employes do not receive as much as \$500 annually, the resolution calls for an earnest and systematic endeavor to organize all employes in the iron, steel, and tin plate industry and subsidiary co-related trades.

TEACHER GETS A VERDICT

Miss Amelia Barth Sued School Director Who Said 14-Year-Old Lat Sat on Her Lap.

Sterling, Ill., Dec. 15 .- Miss Amelia Barth, a school teacher, residing in Milledgeville, north of ans city, received a \$2000 verdict from a jury in the Carroll county circuit court in her suit against R. S. Hanna, a member of the Milledgeville board of education, for slander.

Miss Barth asked for damages of \$10,000, maintaining the statements it. the school director had circulated not only injured her reputation as a school teacher, but reflected on her morals, wounded her heart, made her the laughing stock of Carroll county. and that she was unable to get employment in any school in Carroll county.

The teacher said Hanna, .ne school director, circulated a report that she had held a 14-year-old boy, Walter Mc Comb, on her lap, and she allowed the boy to kiss and hug her, and that she returned the caresses.

In court Hanna maintained that was the truth, and placed his daughter on the winess stand to rove the assertion, Miss Barth proved her side by all the pupils of the school and the youth in question.

Whathever be the amount of the gur of the late Gorge Orock er to Columbia University, for the purpose of carrying on re searches with intent to discover the cause, and thereby the prevention or cure of cancer, it is of sufficient amount to make these researches as thorough as are others now in progress in the Rock efeller Institute, at Buffalo, and in Europe. Several of the New York physicians who attended the triennial medical congress at Budapest, in August, reported upon their return that the most gratifying incident of the congress was the firm conviction of some of the foremost men of science of Europe that the time is almost at hand when the cancer germ will be identified, that discovery being sure to be folicwed by methods of prevention and cure. F all the old festivals that of sheeted snow, we turn for our grati-Christmas awakens the strongest and most heartfelt associations. There is a tone of solemn and sacred feeling that blends with our conviviality, and lifts the spirit to a state of hallowed and elevated enjoyment. The services of the church about this season are extremely tender and inspiring; they dwell on the beautiful story of the origin of our faith, and the pastoral scenes that accompanied its announcement; they gradually increase in fervor and pathos during the season of Advent, until they break forth in full jubilee on the morning that brought peace and good will to men. I do not know a grander effect of music on the moral feelings than to hear the full choir Despite the assertion Monday night and the pealing organ performing a filling every part of the vast pile with

It is a beautiful arrangement, also, derived from the days of yore, that this festival, which commemorates the announcement of the religion of peace and love, has been made the again those bands of kindred hearts, which the cares and pleasures and sorrows of the world are continually operating to cast loose; of calling back the children of a family, who have launched forth in life and wandered widely asunder, once more to assemble about the paternal hearth-that rallying place of the affections, there to grow young and loving again among of the affections, which prevail at this mementos of childhood.

There is something in the very sea on of the year that gives a charm he festivity of Christmas. At oth times we derive a great portion of our pleasures from the mere beauties nature. Our feelings sally forth and dissipate themselves over the sunny the light of heaven; and every counteing fragrance of spring, the soft en pomp of autumn; earth, with its and its cloudy magnificence, all fill us we revel in the luxury of mere sensawhen nature lies despoiled of every charm and wrapped in her shroud of Christmas.

The ruddy blaze diffuses an artificial summer and sunshine through the room, and light up each countenance with a kindlier welcome Where does the houest face of hospitality expand into a broader and more cordial smile-where is the shy glance of love more sweetly eloquent-than by the winter fireside? And, as the hollow blast of wintry wind rushes through the hall, clasps the distant door, whistles about the casement, and coor, whistles about the casement, and in m. 1 rayer meeting Friday even rumbles down the chimney, what can it g 2 7:30. Rev. Bumpus, pastor be more grateful than that feeling of sober and sheltered security with which we look around upon the comfortable chamber and the scene of domestic hilarity?

Amidst the general call to happiness, the bustle of the spirits, and stir period, what bosom can remain insensible? It is, indeed, the season of regenerated feeling-the season for kindling not merely the fire of hospitality in the hall, but the genial flame of charity in the heart.

Surely happiness is reflective, like landscape, and we "live abroad and nance, bright with smiles and gloweverywhere." The song of the bird, ing with innocent enjoyment, is a mirthe murmur of the stream, the breath or transmitting to others the rays of a supreme and ever-shining benevovoluptuousness of summer, the gold lence. Russia Now Has Woman Lawyer. Dr. Katherine Fleischer has just been admitted to the bar in Russia, and will practice her profession in St. Petersburg. She is the first woman lawyer in the czar's dominions, and she passed the final examinations with high honors. She met with much opposition when she first announced her intention of studying law. Prejudice was strong, even from influential members of her sex. She persisted in her ambition against all obstacles, however, and came out triumphant. 16 is her hope to fight the legal battles of women, and she seeks them espa cially as clients. INSURANCE LONG IN FORCE

First Introduced When Sea Voyages Were Accompanied by Many Perils.

The practice of insuring originated from marine insurance, for merchants sending goods by sea in early times usually accompanied the ship themselves, and were liable to capture by Moorish or Turkish pirates. With a view to providing the necessary ransom to secure their release it became oustomary before embarking to pay an agreed premium to certain individuals called underwriters who were willing to guarantee payment of the ransom in the event of the merchant being captured. From this beginning the practice was gradually extended to insuring the lives, first of mariners

and then of other persons. In 1574 Queen Elizabeth granted a patent to Richard Chandler under which he established a Chamber of Insurance in London with the object of regulating all contracts of insurance, but this Chamber, with probably all its records, was destroyed by the great fire of 1666. The earliest recorded life policy was issued in June 18, 1583, and provided that if a certain William Gybbons, shall die within 12 months the underwriters would pay £383 6s. 8d., the premium being

She hesitated a long time before venturing to speak to Mr. Dillington about it. His peculiar aversion to the whole matter embarrassed her. The mere mention of the name "Rachel" disturbed him, and her occasional efforts to lead the conversation around to the subject were promptly frus-

Finally, however, she decided to appeal to him for help. Only one more week remained, and she beheld her Greams of wealth fading into the dull cated. The old gentleman himself had reality of drudgery. So, as he was about to take his departure after a short call on Christmas eve, she said not be handicapped as he had been. suddenly: "If a person were to find a rhyme for 'Rachel' it would make him famous, wouldn't it?"

"I suppose it would," he answered dryly.

"And it would make him rich?" "Oh, yes." Then in the same breath he abruptly changed the conversation. "Perhaps, Miss Hollis, it may interest you to know that I expect in the next week or two to come into posses sion of a small fortune, and I hope then to be married;" and holding out his hand he bade Marjorie good night

"Good night," she responded mechanically; and as the door closed she staggered into the parlor, and, throwing berself upon the sofa, burst into a torrent of passionate tears.

Suddenly her sobbings ceased. She sat up, bewildered, startled. In the midst of the turmoil of her troubled spirit there had burst upon herwithout warning, without thought-a rhyme for "Rachel!"

Two days later Marjorie Hollis was in Washington; and on the morning of December 27 she walked into the office of Dunbury & Bordeau and quietly announced to those two gentlemen that she had come to claim the \$250. 000 for a rhyme for "Rachel."

mment the two men stared at her without uttering a sound.

Mr. Dumbury was the first to find his voice. "Impossible!" he ejaculated. Then noticing the sudden flush the girl's face he checked himself. "Pardon me, my dear young lady! I did not mean to doubt your word; but you have astonished us beyoud measure. Let me explain," and ne placed his chair beside hers.

'May I have just a moment to think?" she asked faintly.

"Certainly, certainly! I did not nean to hurry you. Of course, I understand, you feel a trifle agitated: out take your time, and you'll recall the rhyme in a minute or two."

Several moments passed in silence Then Marjorie arose. She faced the two lawyers, and with a tremor in her voice that she struggled bravely to

"The extraordinary offer to which you have responded was made in compliance with the will of our late client, Mr. Benjamin F. Morton. He was a trifle eccentric, and one of his hobbies was writing poetry. The young man informed him that there was no such rhyme, but his uncle refused to believe it. He insisted that as the tad had had a college education he could find a rhyme if he the old gentleman took it into his her cheeks. head that his nephew was obstinate and ungrateful, and he cast him off. A short time before he died, however, he finally concluded that perhaps there really was no rhyme for 'Rachel,' and he decided to reinstate his nephew in his will; but with this proviso: That a rhyme should first be advertised for and that should any person produce such a rhyme within a year, then the money should go to such person, in-

"As the executors, we, of course, followed the provisions of the will, but we were definitely satisfied there was no such rhyme. And yet you say you have found one. "Marjorie," he said suddenly, with an impulsiveness and a familiarity he had never before manifested; "you have wished me a happy New Year. Do you know that it is you alone who can make the year happy for mesupremely happy? I did not dare express my feelings before I was absolutely sure that I ald offer you the comforts and the pleasures you deserve. Now, I am independentwealthy; and you, Marjorie, will you share my fortune with me?"

It was late ere the lovers were ready to part: "Is it any wonder," he was saying, as he lingeringly prepared to leave, "that I avoided the subject of my uncle's outlandish offer? Supposing that by some possibility there had been a rhyme for 'Rachel;' supposing some one had succeeded in

finding it! But thank fortune, dear, there is none!"

"Yes, but there is a rhyme for 'Rachel," she answered softly, casting down ber eyes to hide her sudden emotion. "Would you like to hear it? Let us sit down here-on the sofa,

and I will tell it to you." She waited a moment after they were seated, and then in a half fremulous whisper she recited the following

The name of the Italian given by Bugliono is being kept secret by the authorities, who are also keeping their future course. Bugliono was released following his testimony.

Mob Was Orderly.

The descent upon the Manfredo home by the masked band was conducted in the most orderly manner, and no attempt was made at violence. Bugliono was subjected to a severe "sweating," however, in regard to the supposed black hand depredations of the past few months, including the killing of Williams and the shooting at the wife and children of Luke Newton.

The determined stand of the other citizens of the section, particularly at and the greater portion of the Scottsboro, where the shooting occurred, and the fear of reprisals has caused a general exodus of the Italians. Of fifty Italian families, about half of the population of Scotts
